

HAZ MAT SOCKS & PILLOWS L90891, L90895

Issue: Potential safety hazards are present around machines or in storage areas where leaks, drips, sprays or spills are most likely to occur.

Solution: A spill control plan should be developed with absorbent products readily available to control daily leaks and spills around your plant or to use in case of an emergency.

Description: OIL-DRI® Haz Mat Socks and Pillows should be a part of every spill control plan. These products safely contain and absorb all fluids including caustic acids and bases. They are brightly colored yellow for high visibility to indicate caution when disposing. Use socks to contain leaks and prevent spills from spreading. They conform snugly to fit in tight spaces, around corners, and at machine bases. Pillows can be used to absorb steady drips or for puddle absorption.

ITEM#	DESCRIPTION	SIZE	QTY	PKG
L90891	Hi Visibility Haz Mat Sock	3" x 4'	12	Box
