Issue: Potential safety hazards are present around machines or in storage areas where leaks, drips, sprays or spills are most likely to occur.

Solution: A spill control plan should be developed with absorbent products readily available to control daily leaks and spills around your plant or to use in case of an emergency.

Description: OIL-DRI® Universal Socks and Pillows should be a part of every spill control plan. Available in both traditional cellulose or 100% recycled polymeric foam. Use socks to contain fluid leaks and prevent spills from spreading on the floor. They conform snugly to fit in tight spaces, around corners, and at machine bases. Pillows can be used to absorb steady drips or for puddle absorption.

	ITEM#	DESCRIPTION	SIZE	QTY	PKG
SOCKS	L90890	Universal Cellulose Sock	3" x 4'	40	Box
	L90790	Universal Cellulose Sock	3" x 4'	12	Box
