

### Professional Absorbent Pads

#### L90908

**Issue:** Potential safety hazards are present around machines or in storage areas where leaks, drips, sprays or spills are most likely to occur.

**Solution:** A spill control plan should be developed with absorbent products readily available to control daily leaks and spills around your plant or to use in case of an emergency.

**Description:** OIL-DRI® Universal Pads should be a part of every spill control plan. These bonded pads are reinforced with cover stock for extra durability to handle both aggressive and non-aggressive leaks and spills. Strond bonded layers allow fluid to spread through the material quicker for the best absorption rate.

#### Features & Benefits:

- **Eliminates Guesswork** - Can be used on all liquids including acids and bases and unknown liquids
- **Superior Retention** - Holds liquids in
- **Durable** - Bonded for strength, will not tear apart in normal conditions
- **Incinerable** - Reduces disposal costs

#### Product Specifications:

- **Composition:** Chemically Inert Polypropylene
- **Color:** Grey
