

Resorb™ Spill Kits Packed in Green Drum™

L92417, L92435

Issue: Most plants or fleets encounter leaks, drips, sprays or spills and are required to maintain a spill control plan and have the appropriate materials on hand to deal with such matters. Responsible facilities are changing their buying practices to become more environmentally conscious. New products are being developed to meet this ever growing demand.

Solution: The use of all natural recycled absorbents will support your efforts toward environmental sustainability. Be prepared with earth friendly products readily available to control daily leaks and spills in your facility or to keep on hand in case of emergency.

Description: Oil-Dri® offers universal spill kits designed with conservation in mind. These spill kits have all the tools needed for emergency cleanup! All absorbents are cotton and cellulose based recycled material and come packed in a unique and sturdy triple-wall recycled corrugated drum for easy storage. Green Drum™ is manufactured with up to 35% recycled fiber and complies with Sustainable Forestry Initiative® Sourcing Standards. Drums are 100% incinerable.

Features & Benefits:

- **Earth Friendly** - Resorb™ pads manufactured with 85% recycled cotton. Sock/pillow filling and loose absorbent manufactured with 100% recycled cellulose. Green Drum™ - Manufactured from up to 35% recycled corrugation and 100% recycled Kraft Linerboard
- **Environmental Sustainability** - Manufactured from corrugation in accordance with the Sustainable Forestry Initiative (SFI)
- **Disposal** - Entire Kit is incinerable
